

I respectfully urge you to reject the NAB's Petition 04-160 and it's efforts to stop XM radio from providing XM Instant Traffic & Weather. The service is fantastic, during my commute to work each morning I don't have to wait 10 to 15 minutes to find out about traffic jams and accidents along my route to work. I can tune to my XM station and hear the latest traffic information before I reach my freeway on-ramp and have instant traffic information that makes my commute quicker and safer. XM satellite is a fantastic service where I can hear any type of programing I can imagine with a variety that is sorely lacking from broadcast radio where once or two companies control the listening choices of entire regions. I fully support XM and their ability to provide the programing that I demand and deserve.

Thank you.
